

A photograph of two men in a warehouse setting. The man on the left has a beard and glasses, wearing a grey long-sleeved shirt. The man on the right is bald with a beard, wearing a teal and white zip-up jacket. They are both smiling and looking towards the camera. The background shows warehouse shelves with boxes and a large roll of material on the left. The text "WE ARE MIDZUID" is overlaid in large white letters.

WE ARE MIDZUID

MIDZUID

MIDZUID WORKS FOR EVERYONE

Melvin

MidZuid catering employee

"I learned how to express my opinions and to discuss them with my colleagues. This helped me get to know my colleagues better. We also have fun together outside work. I really feel at home here."

Anneloes van Hunnik

Councillor of the Municipality of Altena
and Chair of the Board of MidZuid

"Feeling good about going to work somewhere where you feel at ease and feel seen, and where you can draw upon your personal qualities to the full, and are of long term significance. I wish that for everyone."

Peter van den Bogaard

Director Hyperpro

"Over the last few years I have seen at first hand how the people from MidZuid are able to help us. I have experienced their drive, loyalty and job satisfaction. Qualities that are unfortunately lacking in many young people and agency employees. Thanks to our collaboration with MidZuid, we rarely need temporary staff or holiday employees anymore. That's hugely to our benefit."

Ellen Weeland

Matcher at the Employer Service Point

"By engaging in conversation and listening to someone's personal story, I find out what someone has to offer or and what they need. When someone finds lands their ideal job, we all celebrate their success together. There's no better feeling."

Work means earning your own keep, personal development, resolving your problems, having a goal in life and meeting other people. Work is so important. Because work means taking part, contributing to society and not being dependent on handouts.

Unfortunately, not everyone can find a job on their own. That's why MidZuid – the workforce development company of the Dongemond region – exists. We provide support to people with a vulnerable position in the labour market and to anyone who needs a little help finding and keeping work.

We work with the UWV, the municipalities of Altena, Drimmelen, Geertruidenberg and Oosterhout, and special needs schools and employers. Just like us, they believe that no one should be sidelined without cause and that everyone deserves a job.

For job seekers

Get to work

We are here for you

- If you are struggling to find work because you've been sick, have a disability or because you've been out-of-work for a long time;
- If you are doing a VSO or PrO training and are looking for help taking the step from school to work experience or an apprenticeship;
- If you are new to the Netherlands and want to start work.

We offer different types of work

You can work for us in various capacities. Looking for something else? Then we'll try to help you find the right job for you.

How can you start working for or through us?

Do you think that MidZuid could help you? Ask at the municipality or the benefits agency whether you can work for us. We always start with an intake interview to see what you want and how we can help. We then provide you with a diagnosis and set to work. You usually start working at Mid-Zuid. We then look at whether you could go and work at another organisation. After six months you move on to a regular job. And if you are not yet ready? Then you get to stay a little longer at MidZuid.

Further information

Want to know more about MidZuid? Take a look at our website. Any questions? Go to our website's contact page. We will put in you in touch with the right person as quickly as we can.

at municipalities and businesses.

And much more

We will look for a job to suit your needs!

Cleaning work

in town halls, offices and businesses.

For employers

Working together with MidZuid

We are happy to talk through with you about how we can take work off your hands and help our employees get started. This includes production work (from repackaging to assembly), green care maintenance, catering and secondment (both group and individual). We can also provide storage space. Our warehouse can store up to 2,000 euro pallets.

Inclusive technology and innovation

We would love to become your innovation partner and see whether using technology in the workplace could help keep people working even though their labour market position is vulnerable. MidZuid is affiliated with TINT (Technohub Inclusive Technology) West Brabant, a regional collaboration in the technological development field.

We work to promote and develop inclusive

technology together with organisations in the social sector, employers and education. And best of all: together we can help people find work, income and a future. That's real social entrepreneurship.
